

## HERON HILL WINERY PARTNERS WITH CANANDAIGUA LAKE WATERSHED ASSOCIATION

### WHAT IS THE CANANDAIGUA LAKE WATERSHED?

A nonprofit organization dedicated to protecting the water quality and overall health of Canandaigua Lake and its surrounding watershed. Through education, advocacy, and scientific monitoring, CLWA works to safeguard this vital natural resource for current and future generations. Their efforts unite community members, local governments, and environmental experts to promote sustainable practices and preserve the lake's ecological integrity.

### WHERE DO THE GRAPES COME FROM?

Ingle Vineyard, situated on the west side of Canandaigua Lake, is the largest vinifera vineyard on the lake. Owned and maintained by the Ingle family for over 50 years, the vineyard is rooted in sustainability, free of herbicides and pesticides, and cared for using environmentally responsible practices. All grapes are hand-harvested to ensure only the finest fruit is selected.

## Canandaigua Lake Watershed Association Chardonnay

*A bright golden straw colored wine with powerful aromatics of lemongrass and green apple skins balanced with minerality. The palate is bracing, but balances with medium to full body.*

## Canandaigua Lake Watershed Association Cabernet Franc

*Rich and exciting with plum, blackberry, mint, and clove aromatics. On the palate the wine shows tremendous strength with ripe tannins, seamless acidity and wonderful fruit and herbal tones leading to a long finish. This is a wine that will do well over the next 8-12 years in the cellar as well.*

**\$24 PER CASE IS DONATED BACK TO THE CANANDAIGUA LAKE WATERSHED ASSOCIATION**  
**Preserve the Lake, One Bottle at a Time**
